

# Finishing Touches

To satisfy your passion for style without sacrificing safety and energy efficiency, customize your Seabrooke® windows with your choice of dazzling glass options and interior and exterior frame choices.

## A little color makes a big difference.

Unlike many windows, Seabrooke windows and doors can be manufactured in a number of popular interior and exterior color combinations.

## Brighten your outlook with decorative options.

Enjoy the splendor of authentic old world beveled-leaded glass; the early American look of Colonial grids; or the rustic charm of Diamond grids. Each decorative style is mounted between two panes of insulating glass for protection and easy cleaning. Seabrooke windows also offer beautiful Regal V-groove cut glass for added distinction.

And, you don't have to trade aesthetics for thermal performance. Each of our decorative glass styles combines elegant detailing with full insulating glass energy efficiency.
